

Aluminum Mechanical Fastener

Deksmart mechanical fastener, also known as “L-Trim”, is a powder coated aluminum termination strip used to mechanically fasten Deksmart membranes at certain detail areas. This product is usually used when standard building envelope overlaps cannot be achieved and the membrane must be fastened and sealed permanently to a finished surface.

Features

- Durable powder coated finish
- Available in 5 colors
- Comes with color matched fasteners
- Can be used for outside perimeter deck detail
- Compatible with all Deksmart membranes

Technical Notes

- Extruded Aluminum
- Available in 2 different heights (3/4" and 1.5")
- 10' lengths
- Colors: beige, grey, white, brown or black
- Pre drilled at 6 inch intervals
- #8 x 1" pan head color matched fasteners
- Use in combination with approved sealant / butyl strip

Packaging

- Sold in single units
- 500' per shipping tube
