### Overview

Hot summer days and continual rainy winters in the Pacific Northwest had worn down the looks of this once vibrant second floor sundeck over a 20 year period. An extensive re-preparation of the deck was required before new fascia mount guard rails and Deksmart vinyl decking could be installed. These home owners trusted their decking renovation to Deksmart's largest applicator in the Fraser Valley, Frank's Total Deck. The work was finished on time and on budget, with a new hot tub and glass railings installed along with Deksmart vinyl decking.
