

PVC Coated Diverters

Deksmart PVC coated diverters are designed to offer additional protection at the deck to wall interface. These diverters are installed in conjunction with the Deksmart PVC coated flashing system to create a positive flow of water from where the Deksmart membrane ties into the building.

Features

- Compatible with all Deksmart membranes
- PVC coating for watertight termination
- Multiple nailing surfaces for ease of installation
- Left side / right side design

Technical Notes

- 26 gauge thickness
- 2" drop to tie into flashing system
- 1 1/2" overall height on deck surface

Packaging

- Sold in single units
